

# IDP: Software Engineering – Web Development

## Business & management panel development

### Who we are

Reinio is a Munich-based startup founded by TUM alumni that digitalizes clothing care industry by enabling customers to have their clothes picked up, cleaned and delivered back. We offer mobile applications for businesses and individuals to schedule the orders.

Launched in early 2020 we are looking to expand our team in the next months. Sounds interesting? We're excited to see your application!

### Who you are

- Experienced in web development, JavaScript/CSS/HTML, React.js
- Have understanding of backend development, version control (git)
- Eager to learn more about latest technology, and best agile practices
- Ambitious and looking for a fun and focused environment to support your growth
- Team player with ability to work both independently and in a team
- Fluent in English

### Your tasks

Develop our business administration panel that includes management of customer data, orders and logistics using modern components. Your work will make a **direct business impact** and to be used by our partners. Specifically:

- Implement the project under our mentorship and deploy to existing environment
- Follow iterative development based on collected feedback from the customer
- Build reusable code and libraries, using the latest technology stack
- Additional tasks based on your interest (e.g. event-triggered email/sms, GDocs generation, route planning, with GMail, Twilio, OpenStreetMap APIs)

### About the IDP

- This IDP is supervised by the Entrepreneurship Research Institute (ERI)
- Theoretical part (lecture) can be chosen by you from the course list of the TUM School of Management
- Applications are possible as a team or individuals

### What we offer

Join an early-stage startup with flat hierarchies, opportunities to grow, learn directly from its founders. and many other benefits, including:

- Real-world impact: developed project will be used by our customers
- Clear objectives, goals with supervision of founders: learn from experienced engineers from companies such as Google
- Flexible working schedule, work remotely or on-site in the heart of Munich
- Team culture: get to know Munich startup ecosystem and become a part of our team
- Opportunity to join the team as a working student after the project

### How to apply

As a team or individual send the following information to [vlad@reinio.de](mailto:vlad@reinio.de):

- CV(s) or a link to your LinkedIn/Xing
- Previous projects and team experiences
- Earliest possible starting date
- Any questions you have
